Subject: Appeal of USAC Funding Decision - Docket 02-6

Request for Review

We were recently notified by USAC earlier today that USAC is withholding all further payments to our company SPIN (143034083) because they had previously rescinded funding for FRNs 2058678, 2058680, 2058682, 2058681, 2058677 and 2058679 of CONGREGATION UVLECHTECHU BADERECH INC. BEN 16051805. Those funding was rescinded because USAC determined that they were not an eligible entity.

We would like to appeal this, because we don't believe that we as the service provider should be held accountable when USAC determined after it has funded an entity that it was not eligible to receive funding. We believe that we complied with all program rules when we bid and provided services to the above mentioned entity. We as a service provider would have no way to determine who is and who is not an eligible entity. We relied on USAC to determine the eligibility for each entity.

We had not filed this appeal previously, because we had been previously advised by USAC that our company will not be held accountable to repay any of the disbursed funds, it is only the responsibility of the entity to do so. It was just recently in July of 2015 when we invoiced USAC for another invoice that we were advised by USAC of our red light status.
